About

I am a junior developer currently studying React, JavaScript and UI/Design at Epicodus. While enrolled, I've discovered the ability to learn a vast amount of information in a very short period of time. It seems as though this struggle has given me a new perspective on my ability to learn new material and has me extremely excited to move forward in the world of programming. A new career awaits and I'm ready for it.

Experience

Bon Appetit Management Company

Cold Side/Salad Bar 2016 - 2018

Effectively ran the made to order salad bar, keeping all ingredients available and fresh for the customers and clientele. Learned to work independently and on a team to complete a variety of tasks up to and including, prep, service, problem-solving, and communication. Was responsible for giving direction to co-workers/temp-workers to delegate responsibility and meet desired deadlines.

Bon Appetit Management Company

Pizza/Sandwich Bar 2014 - 2016

Started this position in the dish-pit and moved to salad bar in the first four months after displaying a desire to learn and grow in the kitchen environment. Within about six more months I was moved up to the Pizza and Sandwich station upon request by my Sous Chef. This was the position that gave me a footing in the culinary world and taught me the value of teamwork and companionship in the workplace environment.
